Subject: FPTAS Synopsis (day shift)

Hello,

Please see attached latest 2 reports authored by the CIG.

Here are the latest numbers:

- Downtown Ottawa:
 - Approx. 250 people on Parliament Hill
 - Approx. 1250 people on Wellington

Throughout the day, there have been reports of:

- **Emergencies Act.** Open source indicates that PM TRUDEAU may be planning on invoking the Emergencies Act, which would provide the federal government with extra powers to address the Freedom Convoy protest, according to CBC News. The article indicates that PM TRUDEAU is set to meet with provincial premiers at an undetermined time today. The outcome of this meeting may motivate the Freedom Convoy to continue or to intensify the protests.
- **Agreement/Negotiation.** Twitter post was located indicating that Jim Watson and **Personal** may have reached an agreement for demonstrators to leave residential areas by tomorrow. At this time, the original letter from Watson has not been identified. However, **Personal** posted a video where he denies these claims and asks protesters to not leave.

- Two tweets from the account associated to **Personal Info.** twitter that are contradicting. In one, a tweet states that “The media Lies to their viewers” No “deal” has been made. End the mandates, end the passports. That is why we are here”. In the second tweet, the user state “Plans to relocate trucks out of residential areas as agreed to will go ahead.”
 - CIG OSINT has observed social media posts by **@Personal** associated to **Personal**, **Personal** that suggest he does not believe that the Freedom Convoy 2022 has reached any agreement with the City of Ottawa to contain the protests. On 2022-02-13, **@Personal** stated in a Twitter post that, "No deal has been struck, the federal government has not yet lifted its mandates and passports..." Social media posts made by third-parties involving **@Personal** suggest that he stated, "if they want to negotiate, great, then we'll start piling on other demands."
- **Stun Gun.** A Facebook user and convoy participant by the name of **Personal** may be in possession of a Taser. A video posted on 2022-02-10 on **Personal** Facebook shows what appears to be the handle of a stun gun. Joe Weber confirms that the item in question is a tazer in the video. The tazer appears to be similar in appearance to inexpensive stun guns that are sold on the open market (e.g. second image).
- **Personal Info.** According to CIG OSINT, **Personal Info.** reported in CIG update is an influential Montreal-area podcaster with a YouTube channel called l'Union Fait la Force. **Personal** has been providing logistical support and organizational know-how to protestors at Coventry Road. **Personal** provides updates to his 21,000+ social media followers on Facebook.
- **Personal Info.** CIG OSINT has identified a social media post believed to be made by **Personal Info.** which has been shared by a third-party on Twitter (**@Personal Info.**) at approximately 1000 hrs. In the post, the user **@Personal Info.** (known alias of **Personal Info.**) can be seen reacting to recent news suggesting that PM TRUDEAU may be in discussions to implement the Emergencies Act. **Personal Info.** claims that such a move would result in "attacks on our own citizens to intensify dramatically." Analytical Note: This appears to suggest that **Personal Info.** is claiming that the Government or law enforcement will begin using harsher means of controlling the Freedom Convoy 2022 protest.
 - In addition, PPS-PI has identified Instagram posts by accounts associated to **Personal Info.** and **Personal Info.**, which appears to also be in reference to the potential invocation of the Emergencies Act. Approximately 20 minutes ago **Personal Info.** made a post stating that, “if the FEDS invoke the War Measures Act. Over a peaceful protest – we need every citizen too assemble in Ottawa.” Similarly, **Personal Info.** **Personal Info.** posted a quote from George Orwell, which states “all tyrannies rule through fraud and force but once the fraud is exposed they must rely exclusively on force.”
-
- **Personal** CIG OSINT reported a **s.37** post by **Personal** shared on Twitter. The post from **Perso** states that, “WE WILL BE THE NEW GOVERNMENT. We will just take the power and share it together...”
- **Personal Info.** CIG OSINT located a **s.37** video from **Personal Info.** indicating that he has been banned from Instagram and Facebook for thirty days. **Personal** indicated that he would now be using **s.37** (**@Personal**) and Snapchat **Personal** to communicate.
- **Personal Info.** posted a video on **s.37** stating: “don’t listen to the CBC, you know better. Hold the line.”
- **Personal Info.** PPS-PI have identified through open source a post from a **s.37** account linked to **Personal Info.** which is calling for the arrest of federal cabinet ministers, provincial premiers, and health officers (federal, provincial and municipal). **Personal** calls for the removal

of all participants in the Freedom Convoy and the arrest of their financiers. **Personal** also demands the disabling of security for government buildings.

- **Security Needed Posts.** The two posts below were posted on the official **s.37** Freedom Canada Convoy 2022 account. Both posts call for security personnel to urgently report to the “Big tent” on Wellington & Metcalf as well as contact info.
- **Confidential Memo.** A confidential letter from **Personal** to Ottawa Freedom Convoy was located, stating in part “We need to reposition our trucks so we don’t give the Prime Minister the excuse he desperately wants to use force and seize our trucks ... The Freedom Convoy 2022 board plans to reposition our trucks forward on Monday to consolidate our protest streets in front of Parliament. There is also room for trucks to relocate to 88”.
- **GiveAndGo Leak.** As per Global Mail reporting, the personal information of donors to the GIVESENDGO pro-convoy fundraising website has been exposed on the leak website Distributed Denial of Secrets. This information - amounting to at least 30 megabytes of data - includes names, email addresses, zip codes and IP addresses, according to open sources. Public speculation suggests the exposure of this data may be in relation to a hack of the GIVESENDGO website. CIG OSINT is currently attempting to capture the list.
- **Funds.** The OPP identified a Facebook post by the Freedom Convoy 2022 indicating that they have not yet received access to any funds raised through the GOFUNDME or GIVESENDGO campaigns.
- **(Allegedly) Officer Support.** CIG OSINT has located a YouTube video posted by **Personal Info.** on 2022-02-14 in which a self-described police officer states his support for freedom and a return to normal. The individual identified in the video appears to be wearing a black police vest. At the time the post was identified, this video had received over 3,400 views.
- **Provincial Proof-of-Vaccination.** In a press conference today at 0930 hrs, Ontario Premier Doug FORD indicated that his government will be removing the provincial proof of vaccination system as of March 1st. The second phase of the COVID-19 reopening plan is also set to occur on February 17th.
- **Protective Sites.** CIG OSINT has identified several social media posts calling on protestors to park their trucks at locations including Parliament Hill, the PM’s Official Residence, and Harrington Lake. These posts were made recently, including on 2022-02-13.
- **Supply Convoy.** PPS-PI have identified through open source a FB event "Fort McMurray Supply Convoy to Ottawa 2022" which is departing Fort McMurray on 2022-02-15 created by **Pers. Personal Info.** and **Personal Info.** The description reads: "Support Convoy to Ottawa. Organized by **Personal** departing from Fort McMurray AB Feb 15th meeting with other convoy teams along the way while collecting donations of supplies to support our truckers in Ottawa."
- **Counter-Demo.** PPS Planning was advised through email by counterdemonstration organizer **Personal Info.** that there will be an anti-convoy demonstration taking place in front of East Block from 1800 – 2100hrs on 2022-02-14. Participation is expected to be approximately 20 individuals (as per the organizer) and that they intend to use AV equipment and 6 megaphones for their events.
- **Ambassador Bridge.** CBSA confirmed that Ambassador Bridge (ON) Bridge has re-opened to Canada-bound traffic as of midnight.
- **Peace Bridge.** No delay at Peace Bridge Commercial. The Peace Bridge Authority (PBA) has been directed by law enforcement to discontinue facilitating the movement of US Bound Commercial Motor vehicles (CMV).
- **Blue Water Bridge.** The convoy on the 402 has not changed. They are continuing to block the westbound lanes about 35km from the bridge. Traffic is being rerouted around the blockade. There is no expectation of that changing in the near future.

- **Queenston Bridge.** U.S. bound commercial vehicle traffic is building and is currently across the bridge. This may present a challenge to staff reporting to work that use highway 405 should it build up past the Stanley Avenue exit.
